PEEPOD™
Patent Pending
by lil vans, llc

Our PeePod is a chic & practical means to hold everything Mommy/Daddy would need to perform those “dirty diaper duties” for on the go.

Features:

- ❖ Holds 4-5 diapers...all sizes.
- ❖ Inside pocket to hold mini diaper rash ointment/cream.
- ❖ Velcro flap closure for easy access.
- ❖ Outside zipper pocket to hold wipes with waterproof liner to retain moisture for approximately 2 days. The Wipe dispenser coverlet is a magnetic flap closure for quick and easy access.
- ❖ Adjustable strap for versatile carrying positions.

Tips: Wipees

1. Grab the top sheet pull upward through the opening from inside out
2. When dispensing the wipes for use and the last one is “dangling” just tuck half back in for proper closure.
3. If you left the wipes in the PeePod™ for more then 3-4 days (Guilt!) and they dry up DON'T THROW out. To re-hydrate the wipes all you would need is to moisten them with water...and you're back in business (Might not be the business you want to be in).
